

Bagdad is a classic "company town"...literally in the middle of nowhere. If you don't work for the mine or its related support structure, you don't live in Bagdad.

However...the ride to/from Bagdad offers a fantastic scenic ride through Arizona's high and low desert country along curvy roads and a big sky. There are 2 gas stations, a small grocery store and other peripheral businesses, parks and schools in Bagdad. Most important...is the Main Street Diner in the converted Airstream. Good food and service can be found here. The Diner is open from 6a to 2pm daily but they won't throw you out if you get there at 1:45!

There are no services between Prescott and Bagdad. Cell service may be spotty in some locations.
